Microsoft

Achieve more together with Microsoft 365 Business

Take "find business technology solution" off your to-do list. Microsoft 365 Business is an integrated cloud-based solution that simplifies IT, amps up your data security and keeps employees' devices up to date with the latest from Windows 10 and Office 365.

Microsoft 365 Business can help your employees:

Be more collaborative so you can achieve more together

83% of knowledge workers depend on technology to collaborate.[1]

of knowledge workers still collaborate on documents using email.[2]

Problem

Emailing files is **slow and inefficient**. How can employees know they're looking at the latest version? How can they make quick decisions?

Solution

Microsoft 365 Business is powered by Office 365, so employees can easily jump on a Skype for Business video conference to **communicate, view files, collaborate and plan next steps** as if everyone was in the same room.

Be more mobile anywhere it matters

of workers find mobile apps have less functionality or are harder to use than non-mobile apps.[3]

61% of employees believe effective business tools allow them to offer faster service.[4]

Problem

Without the right tools, mobile workers may not be able to **respond quickly to customers and stay productive** outside the office.

Solution

Microsoft 365 Business integrates Office 365 apps, OneDrive for Business file storage, and Outlook, among other tools, to **keep employees working on the go** and connected to email, calendars and data – even offline. When the connection is restored, their files and inbox sync automatically.

Be more secure with always-on security

28% of employees use at least one unsanctioned tool to supplement the business tools provided by their company.[5]

$21,042

The average cost to investigate, contain and remediate a compromise of one employee's mobile device.[6]

Problem

A skyrocketing number of devices and apps put your company's **sensitive data at risk.**

Solution

Microsoft 365 Business, also powered by Windows 10, provides **automatic and universal enforcement of security policies** that'll reduce your business's risk of data breaches. Devices receive the latest updates, and built-in encryption locks down lost and stolen devices. For an end-to-end solution, consider arming employees with Microsoft Surface devices, which are designed for complete mobility and with the best features of Windows 10 security.

Start creating your best business today with a technology solution designed for growing businesses just like yours.
