What Components Build Your Solutions?

Our team of sales leaders and technical experts are dedicated to supporting your escalating needs around high-performance computing solutions including:

Client, Gaming, Workstation	Enterprise, Server, Data Center	Content Professionals	Esports

Everything Components and Integration Services

D&H is prepared to support system builders, integrators, white box builders, OEMs, contract manufacturers, and resellers as they adapt and take advantage of current industry changes and trends. Our team of experienced sales engineers will recommend the latest products, provide competitive quotes, provide exceptional inventory management, and deliver an exceptional customer experience with our dedicated pre-/post-sales support. Our new dedicated business unit will present access to a portfolio of products from leading component manufacturers and upgrades for pre-built systems for any application or solution.

Contact our dedicated Components Team to get started today!
