How Office 365 Standard accelerates your business in the cloud

Start right: A smooth, comprehensive migration, start to finish

Our experience and proven methodologies remove the uncertainties. From the first planning conversation to handing you the keys to your new Office 365 home – and everything in between, we have you covered.

We create a custom plan to optimize your move to Office 365	End users provide credentials. We take care of the rest.	Your company enjoys a seamless transition to Office 365
Plan	**Migrate**	**Switch**

We migrate server and local data, as well as all of your unique employee experiences and settings. All the productivity of a cloud-based email system – with all that was good in the system you came from

Exchange
- Email signature blocks
- Inbox rules
- Calendar permissions

POP3/IMAP
- Client-side Email
- Client-side Contacts
- Client-side Calendars

Google
- Options for labels
- Move to folders
- Map to categories

Office 365
Automated vanity domain processes streamline the switch to the new Office 365 tenant.

Stay protected, stay productive

Data loss in the cloud

It happens

32% of companies experience data loss in the cloud[1]

It's costly

Study shows the predictable cost per data loss is $3,957[2]

It's stressful

Just the thought of data loss can distract or drain resources

Cloud Backup protects Office 365 data so you can stay productive

Get back on track quickly with the most comprehensive backup solution across Office 365 applications
