Peer-to-peer connectivity within Windows

**Share What's Important**

**Full screen mirroring**

From computer or mobile device.

**Single Window Sharing**

Keep presenter notes private.

**One-to-many desktop sharing**

Share content across multiple displays.

**Audio streaming**

Use personal device to control sound.

**Enterprise Security**

**Pin code connect**

Prevent unwanted streams.

**Web Proxy support**

Configure to filter internet access.

**Multi-network support**

Securely present from different VLANs.

**Windows domain authentication**

Smooth authentication of Airtame devices.

**Airtame Cloud - Save time, reduce IT maintenance and increase display lifespan with all-in-one cloud management**

**Access a range of apps to create tailored digital signage.**

-  YouTube
-  Homescreen
-  Room Overview
-  Website
-  Dropbox Gallery
-  OneDrive Gallery
-  Google Slides
-  Unsplash
-  Trello
-  World Clock

**Digital signage for all screens**

Create tailored digital signage  
Display images, websites, schedules, room agendas, clocks, project progress and more.

Preview content  
Preview before sharing via Airtame Cloud app.

Personalized space  
Room booking and schedule overview.

Set up playlists  
Play content on loop to avoid blank screens.

**Remote content management**

Manage devices remotely  
View, update and manage all devices from anywhere

Control user roles & permissions  
Assign different access levels according to user, roles, location and use case.

Save on power  
Schedule screen usage according to school hours.

Optimal deployment  
Full control of device performance and settings.

**Airtame 2 Wireless HDMI Adapter**

Plug in and connect to WiFi network to share content from user's device wirelessly or use with Digital Signage to show custom images, websites and dashboards.

**Ethernet Adapter**

USB to Ethernet adapter for a secure wired connection between Airtame and the router. Handles a wired and a WiFi connection to allow both networks to stream to a single device.

**Wired Ethernet PoE Adapter**

Provides a 3-in-1 solution that powers Airtame, connects to network, and plugs into display screen's HDMI.

**Airtame Cloud Plus Software**

Create tailored digital signage, automate screens to turn on and off according to schedule, and use Room Overview to display schedules.
