

UVC Sanitizing & Charging Cart with 48 USB-A Ports and 48 AC Outlets

Model# 180320

SANITIZE AND FAST CHARGE CHROMEBOOKS, PHONES, TABLETS, AND OTHER NOTEBOOKS

Quickly charge, sanitize and organize multiple devices with Manhattan UVC Charging Cabinets and Carts. With options for 16, 32 or 48 ports, these enclosures feature built-in UVC LEDs that help eliminate harmful pathogens for increased peace of mind and user safety.

Charging flexibility

Front-facing USB-A charging ports power up tablets, smartphones and other USB devices fast. Port LEDs let you easily know when devices are ready. Rear-facing AC power outlets charge notebooks, Chromebooks and many other devices. All your equipment stays protected from excess power.

Ozone-free UVC cleaning

The cart's ozone-free UVC technology safely kills germs without heat, liquids, or chemicals. Simply connect devices in their bays, close the door and let the timed UVC system do its work. Used and drained devices go in; refreshed devices come out, fully charged and sanitized for the next user.

HIGHLIGHTS

- USB-A charging ports (48 total) with power up to 2.4 A / 5 V per port on the front
- AC outlets (48 total) in PDUs mounted on the back
- Integrated UV LEDs to eliminate 99.99% of germs, viruses and bacteria
- Ozone-free UVC technology for safe sanitizing without heat, liquids or chemicals
- Safely stores, charges and disinfects smartphones, tablets and notebooks
- Protection against overload, overcurrent, short circuit, voltage spikes and lightning strikes
- Sturdy, secure, powder-coated metal housing; 3-point door lock on front and back; two included keys
