SkySound, a Microsoft Teams Certified Pro Ceiling Audio System, delivers outstanding audio performance with AI-powered design and deployment. As a key component of Yealink's comprehensive one-stop AV solution, it integrates effortlessly with Yealink's MTR systems, providing an ideal solution for various scenarios.

One-stop, full-scenario Teams Room

No more repeated checks and coordination. Enjoy seamless integration of Yealink MTR, audio, and integrated control, covering standard large rooms, training rooms, and divisible spaces.

Premium audio quality

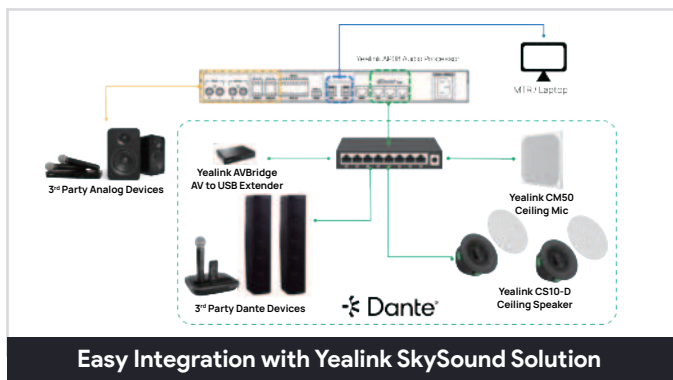

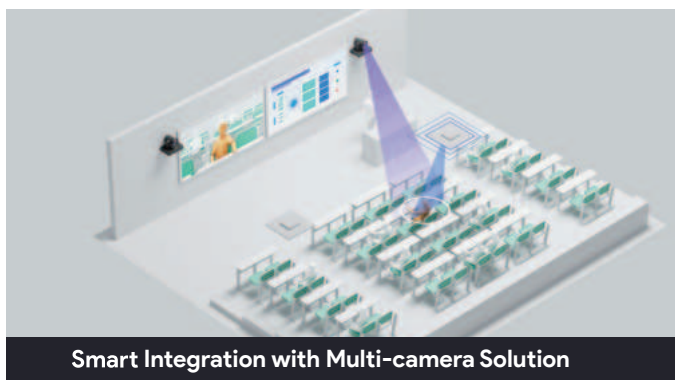

SkySound solutions provide premium, clear, and crisp audio quality while seamlessly integrating with the Dante/AES67 ecosystem for ultra-low latency and stable transmission.

Intelligent design and deployment

The automatic design tool and intelligent configuration features streamline deployment, making it efficient for most spaces.

Smart integration with multi-camera solution

SkySound integrates seamlessly with Yealink's MTR systems, providing a real-time, precise speaker-tracking experience.

Yealink End-to-End Service Journey

From day one to day 1,000 – we're with you

Pathway to Customer Success

ONE-STOP, ZERO HASSLE

Cut complexity, reduce cost,
and keep your teams connected.

VENDOR FRAGMENTATION MEANS SILOS, HIDDEN COSTS, AND WASTED EFFICIENCY.

Traditional Setup: A Puzzle of Risk

- ❗ Compatibility Risk
- ❗ Fragmented Support
- ❗ Complex Configuration

Poor system integration & compatibility

Upgrades or daily use often trigger sync issues and errors, resulting in constant troubleshooting and reduced system reliability.

Fragmented management

Multiple platforms and inconsistent service standards slow IT efficiency and complicate issue resolution.

Uncontrolled costs

Different procurement cycles, spare part standards, and contract terms prevent unified budgeting and block cost optimization.

Security & compliance risks

Unsynchronized updates and fragmented vendor policies create vulnerabilities, making audits complex and exposing organizations to compliance risks.

SINGLE VENDOR. SIMPLE SOLUTION

Support

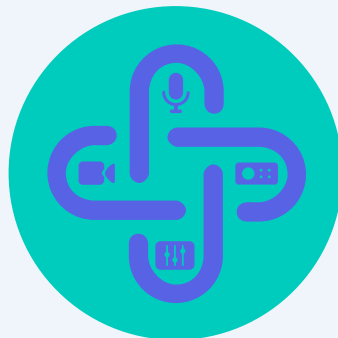

One-stop service and troubleshooting across all devices.

Compatibility

Ensure all devices and software work together smoothly.

Procurement

Simplified purchasing and standardization of equipment.

CUTTING HIDDEN COSTS.

Single vendor solution simplifies very step.

Management

Easy oversight and control from a single platform.

Compliance

Security and regulatory standards managed across the system.

FROM ONE VENDOR TO THE RIGHT VENDOR

Yealink leads with the broadest Teams-certified solutions, end-to-end simplicity, and AI power that reduces costs and future-proofs your investment.

JUST WORKS

Boardroom/training room ProAV setup?

- × Chaos with mixed devices
- ✓ **Seamless, fully compatible setup**

Rolling out updates?

- × Version mismatch chaos
- ✓ **Seamless updates and upgrades**

Deploying new sites?

- × Weeks of guesswork
- ✓ **Simplified deployment, zero hassle**

SIMPLE MANAGEMENT

Too many types of hybrid work gear?

- × Can't manage room systems, displays, or personal devices on a single platform
- ✓ **All hybrid devices fully managed on YMCS-room systems, audio accessories, displays, phones, and headsets.**

Struggling to make sense of device data?

- × Insights locked in silos
- ✓ **Centralized management for actionable decisions**

When you need customized solutions for unique challenges

- ✓ We leverage deep R&D access and agile processes to deliver tailored solutions quickly.

When you concern about device compliance

- ✓ We follow top security standards, making compliance tracking simple and reliable.

When you plan device upgrades with cost control in mind

- ✓ We reserve AI computing power, keeping your devices scalable, cost efficient and future-ready.
