

# **DEVICE AS A SERVICE**

The Device as a Service model offers the flexibility required of businesses striving to meet the needs of the modern workplace.

# Take advantage of D&H's Device as a Service offering to help your Business:

**Enhance, improve and optimize** your IT environment, granting you the ability to reallocate IT resources to more strategic projects.

**Increase productivity** with the latest technology through a vast selection of modern devices from preferred manufacturers.

**Control IT** cost with the flexibility to scale up or scale down based upon workplace needs at a predictable monthly price

**Make the shift** from a CapEx-based spending model of buying hardware to an OpEx-based model of provisioning hardware as a component of a managed service.

**Revolutionize modern IT processes** with an end-to-end fully managed support and device lifecycle management

**Expand geographic footprint** by leveraging nationwide DaaS field service technician network.

Download this free, customizable marketing resource to help you sell DaaS solutions!
