

Solutions for business: **Team workspace**

The new team workspace

In an enterprise landscape with in-office, hybrid, and remote workers, productive team collaboration is challenging. Logitech's team workspace solutions provide an enterprise-grade ecosystem of hardware, software, and services to simplify collaboration for your teams, regardless of location.

Our innovative solutions power meetings that put human connection at the center, providing a consistent experience across all spaces, while enabling simple deployment, management, and maintenance for IT.

Powered by software, designed for all spaces.

Complete hybrid workspace solutions

Everything you need to equip your team workspaces for productive collaboration.

Software

Logitech software enhances the manageability and updates the experiences of our products, so IT can better deploy team workspaces.

CollabOS	3
Logitech Sync	3
Logitech Tune	3

Services

Reduce effort to keep rooms up and available. Optimize performance and get more out of your investment with Logitech services.

Logitech Select and Essential	4
Extended warranty	4

Hardware

Logitech has an extensive product suite to improve collaboration in the hybrid workspace.

Conference cameras and video bars	5
Cameras and room add-ons	6
Touch controllers	8
Compute	8
Accessories	8

Software

Unlock the full potential of your workforce and workspace with Logitech software solutions. From remote device and space management, to powering updates and integrations, to real-time data and actionable insights, our software helps IT save time and effort, enhances meeting experiences, and helps you get more out of your collaboration devices.

CollabOS

The unifying operating system running on select Logitech video collaboration devices, enabling device features and partner platform integrations.

Sync

The remote workspace management software supporting video conferencing device management. Sync also provides device and room insights and management of room and desk booking.

Tune

The end-user software that shows personal device status and enables employees to customize select peripherals. Tune is also the interface for end-user desk booking.

Simplify device management

Remotely manage devices through Logitech Sync. Configure, monitor, and update devices with greater control and visibility. Activate tools like Sync Remote UI Access and proactive issue alerts for fast resolution.

Manage spaces with ease

From meeting rooms to shared desks, you can simplify space management and enable employees to find and book rooms and desks for more engaging and collaborative days onsite.

Get more out of your devices

Watch your devices get smarter through regular updates that add advanced features, enable compatibility with partners like Zoom, Microsoft Teams, and Google, and unlock integration with other Logitech devices.

Services

Ensure your video collaboration solutions are always ready and operational when your teams need them. Logitech services help to increase uptime and reduce the burden on IT. (Note: Logitech Select and Essential are available for both rooms and flex desks.)

Logitech Select

Logitech Select is a comprehensive service plan that delivers reliability, continuity, and peace of mind for the enterprise. Rest easy knowing you have access to ultra-responsive 24/7 support, a designated Service Manager¹ for focused technical assistance, onsite spares¹ and accelerated RMAs for up to five years. Logitech Select also includes all premium software features of Logitech Sync, including Sync Remote UI Access, insights, and room and desk booking.

¹ Available with purchase of a service plan for 50+ rooms.

Logitech Essential

Logitech Essential is a service plan that includes advanced software tools to help you manage your spaces and Logitech devices efficiently. Get access to all premium features of Logitech Sync, including insights on space and device usage; automated alerts for equipment failures through an integration with ServiceNow²; comprehensive remote device management tools; and the ability to set up desk or room booking to help employees find the best space for their needs.

² Requires ServiceNow license.

Extended warranty

With an extended warranty,³ your Logitech purchases are protected against defects for up to five years from the purchase date. Extended warranties are available for either one year or three years beyond the original Logitech manufacturer's limited two-year warranty.

³ Terms and conditions apply. Not available in all countries. Contact your reseller.

Refer to [Logitech.com](https://www.logitech.com) for product details including part numbers and specifications.

Conference cameras and video bars

Logitech's conference cameras and video bars help create a more equitable team workspace with high-quality video and audio that makes it feel like your whole team is in the room, even when half of them work from home. Our trusted video collaboration solutions are compatible with popular platforms like Google Meet™, Microsoft Teams®, and Zoom™.

Rally Bar

Logitech's premier, all-in-one video bar for medium and large rooms. Brilliant optics, powerful audio, and remarkable simplicity set a new standard for video collaboration. Deploy in USB or appliance mode.

Rally Bar Mini

Simplicity meets versatility with Rally Bar Mini, Logitech's most advanced all-in-one video bar for small and medium rooms. Deploy in USB or appliance mode.

Rally Bar Huddle

Logitech's premium all-in-one video bar for huddle rooms and small meeting rooms. Rally Bar Huddle is designed to deliver equitable video conferencing meetings with ease. Deploy in USB or appliance mode.

Sight

Working in tandem with Rally Bar or Rally Bar Mini, Sight extends coverage in larger rooms to give each remote participant a better front-and-center experience. Powered by AI, Sight automatically identifies and frames speakers for a better remote experience.

Rally Plus

Power meets flexibility with Rally Plus, Logitech's video conferencing system for extra-large rooms. Rally Plus features an ultra- HD PTZ camera, modular audio, and AI-driven performance. Expandable up to seven mic pods for even greater coverage.

MeetUp 2

Upgrade your small meeting rooms with MeetUp 2, an AI-powered USB conference camera for small spaces that simplifies the meeting experience for employees and IT. Deploy with an in-room PC or in BYOD mode. For single cable connection, see Active USB Cable below.

Cameras and room add-ons

Meeting rooms come in different sizes and serve different needs. Our add-on products are designed to enhance the productivity and equity of your hybrid meetings.

Rally Camera

Rally Camera is a premium standalone USB camera that delivers brilliantly sharp video at resolutions up to 4K, perfect for medium to large meeting spaces. Rally can be used with third-party solutions or as a secondary camera in larger team workspaces and auditoriums.

Scribe

Whiteboard Camera

Effortlessly share whiteboards into video meetings with Logitech Scribe, an AI-powered whiteboard camera. With built-in AI and a custom lens, Scribe broadcasts whiteboard content into video meetings with outstanding clarity. Easily start sharing with the wireless button or the Tap touch controller.

Scribe accessories

With these accessories, the Scribe whiteboard camera simplifies whiteboard sharing in any space.

Scribe Glass Mount

Mount Scribe on glass surfaces.

Polarizer for Scribe

Polarizing filter to reduce glare in environments with bright lighting.

Share Button

Scribe button in white. Purple button is included with Scribe.

Cameras and room add-ons

RoomMate

Dedicated Meeting Room Compute

This compute was purpose-built for video collaboration. RoomMate runs CollabOS, which allows you to easily deploy Microsoft Teams Rooms on Android™, Zoom Rooms Appliances, and other leading video conferencing platforms. RoomMate can connect to multiple displays, both in conference rooms and even around the office for digital signage.*

*Digital signage capabilities vary by partner.

Compute accessories

Choose the right mount for your team workspace compute.

Compute Mount

Mounting bracket with cable retention for RoomMate and other video conferencing compute devices.

PC Mount

Mount with cable retention for mini PCs and Chromeboxes.

Swytch

Plug-and-Display Laptop Link

Logitech Swytch offers a one cable laptop link to a room's conference camera and display, making it easy for teams to meet, present, and stream over any service.

Docking stations

Logitech enables the same seamless audio and video experience from any workspace — office, home, or flex desks.

Logi Dock Flex

Logi Dock Flex is a managed docking station that enables easy and personalized desk booking for employees and simple device management for IT.

Logi Dock Focus Room Kit

Video conferencing solution for focus rooms with single-cable simplicity.

Touch controllers and compute

Deliver one-touch join, calendar integration, easy content-sharing, and a consistent experience across all rooms.

Logitech Tap IP

The Tap IP touch controller uses a single Power over Ethernet connection for one-touch join and easy content-sharing. Clean cabling and multiple mounting options ensure a professional install. Included with room solutions that use IP-connected touch controllers.

Logitech Tap

The Tap touch controller delivers one-touch join and easy content-sharing with clean cabling and multiple mounting options for a professional install. Included with room solutions that use USB-connected touch controllers.

Tap Scheduler

This purpose-built scheduling panel for meeting spaces indicates availability and displays meeting details. Claim the space for ad hoc meetings, or schedule sessions. Cable management and included mounts allow for a professional install and fast deployment.

Tap accessories

Simplify cable management and mount the Tap touch controller in the most convenient location.

Wall Mount for Tap

Space-saving wall mount with cable management for Tap and Tap room touch controllers.

Table Mount for Tap

Swiveling table mount with cable management for Tap and Tap IP touch controllers.

Riser Mount for Tap

Elevated table mount with swivel and cable management for Tap and Tap IP touch controllers.

CAT5e Kit for Tap

Cabling kit to supply USB data and power to Tap for cleaner and simpler cable routing.

Tap Scheduler Angle Mount

Ideal for lower height placements or angled viewing. Adds 14-degree angle to the device's mounting bracket.

Accessories

Accessories for conference cameras and video bars

Accessories for Rally Bar, Rally Bar Mini, Rally, and MeetUp that offer modular flexibility, so you can equip any team workspace with the solutions to help make meetings more equitable.

Rally Mic Pod

Modular microphones with RightSound for Rally Bar Mini, Rally Bar, and Rally.

Mic Pod Mount

Rally Mic Pod mount for tables and ceilings.

Mic Pod Pendant Mount

Rally Mic Pod Mount for rooms with tall ceilings.

Rally Mic Pod Hub

Customize mic placement for any conference table configuration.

Rally Speaker

Second speaker connects to Logitech Rally for clear, rich sound.

Expansion Mic for MeetUp

Add-on microphone with mute control for extended audio range.

MeetUp Mic Extension Cable

10 m (32.8 ft) extension cable for Expansion Mic.

Rally Mic Pod Extension Cable

10 m (32.8 ft) extension cable for Rally Mic Pod.

Rally Mic Pod CAT Coupler

Extend the length of Rally Mic Pod cables by connecting Rally Mic Pod CAT Coupler to a standard CAT cable.

Wall Mount for Video Bars

VESA-compatible mounting kit for Rally Bar and Rally Bar Mini.

TV Mount for Video Bars

Attach any Rally Bar to almost any display with VESA mounting points.

Rally Mount Kit

Custom mounts for a sleek installation and secure cabling.

TV Mount for MeetUp

Mounting option for MeetUp and MeetUp 2.

Active USB Cable for MeetUp 2

Logitech Active USB Cable allows a single-cable connection between MeetUp 2 and laptops for BYOD meetings.

What sets us apart

What sets us apart

With 40+ years of history in productivity and collaboration solutions and over 250 design awards, we're a company you can trust for innovation and design. And Logitech is a brand your employees likely already know and love. Our goal is to unlock the power of people and teams to do their best work with solutions that are designed for people and built for business.

Global reach

Our brands and footprint extend globally, including Logitech, Logi G, ASTRO Gaming, Streamlabs, Ultimate Ears, Jaybird, and Blue Microphones.

- Availability in 100+ countries
- Global manufacturing and supply chain with a network of value-added resellers, system integrators, and other channel partners
- 14 local support sites around the world

All People, All Spaces

We enable rich collaboration through solutions that are easy to use and intuitive for users, while being flexible and scalable in deployment.

- Range of solutions for every workspace, from phone booths to boardrooms
- Works with leading video service providers
- Deliver a consistent experience across deployments and setups
- All-in-one systems provide choice and flexibility of deployment

Design for Sustainability

Contribute to your company's sustainability goals with us. We are dedicated to reducing environmental impact with every design decision, from the moment raw materials are sourced to end-of-life considerations.

- All CollabOS devices are made with Next Life Plastics
- We use fabric made with recycled plastic materials whenever possible
- Our all-in-one video bars require fewer devices to operate as a room solution, and can draw less power compared to room systems with an external compute
- We deliver ongoing updates and additional capabilities via software, extending the life of every device
