

Logitech Room Configurator

Meet the new and improved Room Configurator. Whether you're configuring a single room or multiple spaces, this will become your go-to tool for creating efficient, high-quality conference room configurations. It's quick, easy, and even features an MSRP cost estimate to facilitate budget planning.

Major improvements:

- **New & expanded offerings:** Updated with recently announced products and services, including MeetUp 2 and Logitech Essential, as well as a BYOD flow.
- **Technical improvements:** Updated logic for better quality configurations, including contextual accessory recommendations.
- **Multi-room functionality:** Add and configure multiple rooms within a single project.
- **Streamlined for partners:** Build rooms swiftly and efficiently with our simplified partner version, crafted with channel power users in mind.
- **Optimized flow:** Enhanced design and copy for a more polished user experience.
- **Immersive 3D rooms:** Camera controls now allow you to zoom and change.
- **Enhanced shoppability:** Downloadable CSV provides details you need to streamline next steps.

Discover how our Room Configurator will revolutionize how you plan team workspaces.
