¹ Deploy to any properly spec'd physical hardware on the Ubuntu 12.04 LTS certified list (SSD or 7200 rpm storage OK), or deploy a virtual appliance to VMware; see hardware sizing guide for details

² Bundled cloud storage is aggregated across all endpoint subscriptions for a given MSP; set your own local and cloud retention policy (no restrictions)

³ License determines the size of the compressed storage pool; the storage pool must not be filled more than 85% full; backups will stop if the licensed storage is exceeded

⁴ Includes all snaps for 3 days, daily snaps for 1 month, weekly snaps for 2 months, monthly snaps for 1 year, yearly snaps for up to 3 years (default is 1 year)

⁵ Includes all snaps for 7 days, daily snaps for 2 months, weekly snaps for 4 months, monthly snaps for 3 years, yearly snaps for 10 years
