

D&H FINANCIAL SERVICES

Assignment of Funds Program

If your company deals with education or government end users, our Assignment of Funds program is a good way to accommodate those orders. D&H acts as a silent financing partner.

We bill your order on net terms, the end user makes the check payable to your company but mails the payment directly to our PO Box address, we clear your invoices and mail you a payment back for your profits on the deal. The end user never knows that we are involved.

This program is free to use, allows us to do deals that well exceed your credit line, and keeps your account clear for daily orders (*we do not hold orders done on the assignment of funds program against your credit line balance*).

Benefits of the Program

- Eliminate constraints by tapping into nearly unlimited credit capacity
- Improve working capital
- Expand into public sector markets
- Boost revenue growth by capturing more sizable opportunities
- Same day approvals
- No fees

How the Program Works:
