2-year limited hardware

FEATURE SPOTLIGHT

Simply the best in its category
Performance meets durability and comfort with a feature set unmatched in the entry-level price category[1].

Optimized for Microsoft® Lync™; Cisco® compatible[2]; Skype™ certified; Compatible with most leading UC platforms
Ensures enterprise-quality audio and an integrated experience with most all business-grade UC platforms.

Padded, metal-reinforced headband
Durable and adjustable padded headband can be worn comfortably all day while metal reinforcement provides strength, flexibility and "just the right" fit.

Replaceable leatherette ear pads
Built with high quality materials so the headset remains comfortable during long hours of use. Plus, the leatherette ear pads can be easily cleaned and are conveniently replaceable.

Inline controls
Convenient access to all call controls: volume up/down, microphone mute and call answer/end[3].

Incoming call indicator
LED flashes with incoming calls[4], providing a convenient visual cue to answer the phone.
Digital Signal Processing (DSP)
Enables precise tuning for both the mic and speaker so conversations are more life-like.
Acoustic echo cancelation
Blocks unwanted noise coming from the speaker from entering the mic path.

Noise-cancelling microphone
Blocks out distracting ambient noise from the surrounding environment.

Dynamic equalizer
Automatically switches between voice and music modes, delivering the best sound quality for what the user is listening to.

Wideband audio
Hear and be heard in true wideband audio, ensuring those on both sides of the call enjoy a lifelike listening experience.

Durable microphone boom
The boom rotates up and down and can be bent in or out to enable optimal placement for voice pickup.

Stylish, lightweight design
Durable, lightweight materials provide a contemporary, stylish look.

Plug-and-play USB connectivity
Easily connects to a PC or Mac with no additional software required.
