

Comfortable. Stylish. Corded.

Enterprise-quality communication.

The Logitech USB Headset H650e

The Logitech USB Headset H650e, available in both corded mono and stereo versions, delivers enterprise-quality audio and the human-centric design and features Logitech is known for. Interruptions are minimized thanks to a clever in-call LED light, and the inline call controls allow you to manage the call without looking away from your work.

Features:

- Double-ear (stereo) or single-ear (mono) corded design options
- In-call LED indicator light
- Flexible microphone boom
- Quick-access inline controller
- Optimized for Microsoft® Lync™ and compatible with most leading UC platforms
- Flat no-tangle cable
- Dynamic equalizer
- Acoustic echo cancelation and noise-cancelling microphone
- Wideband audio
- Digital Signal Processing (DSP)
- Padded leatherette headband and earpad(s)
- Contemporary, ultra-lightweight design
- Cloth zipper bag included

Logitech USB Headset H650e

In-call LED indicator light

Microphone: (Tx)

- Type: Bi-directional ECM
- Frequency response: 100 Hz - 10 KHZ
- Sensitivity: -45 dB ±3 dB
- Distortion: <10% @1kHz, 15dBPa (MRP) input
- Operating voltage: 1.4 - 5.0V DC

Speakers: (Rx)

- Frequency response: 50 Hz - 10 kHz (diffuse field)
- Sensitivity: 90dB ±3 dB at 1kHz, Input0.56V/10mm free field
- Max output: <100 dB SPL (compliant to EN60950-1)
- Distortion: < 4% @ 1kHz, OdBm0, 1kHz

FEATURE SPOTLIGHT

Mono or stereo design options

Ideal for situations where employees prefer to have an open ear to their surroundings or where they need to block off surrounding noise for laser-like focus.

In-call LED indicator light

Located on the backside of the boom, this red light provides a visual alert to those behind you that you are on a call, preventing accidental disturbances during calls.*

Flexible microphone boom

Rotate the boom up or down and bend it left or right to move it closer to your mouth, enabling optimal placement for voice pickup.

Quick-access inline controller

Control the call with answer/end,* volume up/down and mute buttons. The volume-up button is strategically built higher than the others, providing a point of reference for your fingers and allowing you to control the call without looking away from your work.

Optimized for Microsoft® Lync™; compatible with most leading UC platforms

Ensures enterprise-quality audio and an integrated experience with most all business-grade UC platforms.

Flat no-tangle cable

Avoid cord tangles so you can put the headset on quickly and easily without the mess.

Dynamic equalizer

Automatically switches between voice and music modes, delivering the best sound quality for what the user is listening to.

Acoustic echo cancelation and noise-cancelling microphone

Optimized so you can hear and be heard even in noisy workspaces.

Wideband audio

Hear and be heard in true wideband audio, ensuring those on both sides of the call enjoy a lifelike listening experience.

Digital Signal Processing (DSP)

Enables precise tuning for both the mic and speaker so conversations are more life-like.

Padded leatherette headband and earpad

Built with high quality materials so the headset remains comfortable, even during long hours of use.

Contemporary, ultra-lightweight design

Sleek design and durable materials provide a more attractive look than traditional headsets.

Cloth zipper bag included

Protect your headset at the desk or on-the-go with a premium velvet carry bag.
