

License table for Microsoft Action Pack partners

Benefits include the latest internal-use software that you can use to run your business, sell your solutions, develop applications, and train your employees. These licenses must not be resold or used for direct revenue-generating activities, commercial purposes, personal purposes, or customer training.

Core Benefits now give partners the power of choice to mix-and-match online services and on-premise software licenses. Partners can choose between work-alike solutions for productivity, demonstration, development, testing, and internal training purposes.

Refer to the Product Usage Guide for important details regarding license use rights and limitations about each software product or online service. Your organization must comply with the use terms outlined in the Product Usage Guide.
